✓ D1 & PROFESSIONAL MENTORS

✓ $45/MONTH — ACCESSIBLE FOR EVERY FAMILY

YOUR PLAYERS ALREADY NEED THIS. NOW YOUR CLUB GETS PAID FOR IT.

A New Revenue Stream

Your club earns 25% of every dollar generated from your enrolled players — with zero operational overhead on your end. We do the work. You get the check.

Elevate Your Players

Your athletes get access to elite mentorship and recruiting guidance they can't get anywhere else at this price. Better players reflect well on your club's brand.

A True Partnership

We're aligned with your club's success. The more your players grow and get recruited, the stronger our shared reputation becomes — and the more families refer others.

"In an ideal world, this becomes a seamless extension of your club's development program — with your branding behind it and revenue flowing back to you automatically."

SIMPLE. TRANSPARENT. PROFITABLE FOR EVERYONE.

What We Ask of Your Club

- ✓ Endorse Elevate to your players & families
- ✓ Include us in your monthly club communications
- ✓ Allow us to present to teams (optional)
- ✓ Optionally require enrollment for development teams

What You Never Have to Do

- ✓ Hire or manage mentors

Optional: Require for Dev Teams

Clubs that include Elevate as part of their development program see the highest enrollment — and the highest revenue. We start small (3–5 teams) and prove it before scaling.

UP AND RUNNING IN DAYS, NOT MONTHS.

1. Partnership Signed

We formalize a simple revenue-share agreement. No exclusivity required. No financial commitment from your club. Zero risk.

2. Club Introduces Elevate

You introduce Elevate to your players and families via email, social media, or team meetings. We provide all marketing materials.

3. Players Enroll

Families sign up directly at $45/month. Players are matched to mentors and onboarded immediately. Your club is credited for every enrollment.

4. Club Gets Paid

25% of all revenue from your players is paid to your club monthly. Transparent reporting. Consistent income. No chasing payments.

We provide: All onboarding materials, landing pages, email templates, and player-facing content. Your club doesn't need to create anything.

You receive: Monthly reports showing enrolled players, revenue generated, and your club's earnings — clear and simple.

Optional: We can present directly to your teams and parents to drive higher enrollment — on your schedule, at your facility.

MENTORS WHO'VE PLAYED AT THE TOP.

D1 & Professional Mentors

Every mentor has played at the D1 NCAA or professional level. Players aren't learning from observers — they're learning from athletes who've been exactly where they want to go.

Personalized to Each Player

Every athlete gets their own mentor, their own player profile, and their own development plan. No generic programs. No cookie-cutter advice.

Always Accessible

Text your mentor any time. 36-hour response guarantee. Players stay accountable and supported all month — not just during the monthly call.

WORKING WITH YOUR COACHES

WE WORK ALONGSIDE YOUR STAFF — NOT AROUND THEM.

Elevate is designed to complement your coaching staff, not compete with them. We're not on the field — we're in the player's corner off it. And when clubs want us to, we align directly with what the coaching staff is building.

- ✓ Mentors can be briefed on team goals and individual player needs
- ✓ Player development plans can reflect in-season priorities set by your coaches
- ✓ We reinforce — not replace — your coaching philosophy
- ✓ Coaches can flag areas they want mentors to emphasize
- ✓ Parents receive updates that are aligned with the club's messaging

In-Season & Off-Season

During the season, we focus on mindset, film, and in-game development. Off-season is when strength, nutrition, and recruiting strategy take center stage. We adapt to where your players are.

Transparent Player Progress

Clubs who want visibility into player development can receive aggregate reports. We keep your coaches informed without creating extra work for anyone.

Recruiting = Club Reputation

Every player we help get recruited builds your club's pipeline reputation. College coaches notice when a club consistently produces college-ready athletes.

REAL MONEY. ZERO WORK.

25 players enrolled — **$3,375 / year**

50 players enrolled — **$6,750 / year**

100 players enrolled — **$13,500 / year**

200 players enrolled — **$27,000 / year**

500 players enrolled — **$67,500 / year**

The more teams you bring on, the more your club earns — automatically. A single large club with 3–5 teams enrolled could generate **$10,000–$30,000+ per year** in passive revenue with no additional staff or resources.

Revenue Scenario: Mid-Size Club

TEAMS	PLAYERS	ANNUAL CLUB REVENUE
1 team pilot	~20	**$2,700**
3 teams	~60	**$8,100**
5 teams	~100	**$13,500**
Full club	**~200+**	**$27,000+**

We Start Small on Purpose

We propose starting with 3–5 teams to prove the service before scaling across your full roster. This protects your players, your reputation, and ours.

PARTNERSHIP ROLLOUT PLAN

LOW RISK. HIGH UPSIDE. PROVEN FIRST.

We're not asking you to bet your club's reputation on day one. We start small, prove results, earn trust, then scale together.

Our Commitment to Your Club

- ✓ Deliver exceptional service to every enrolled player
- ✓ Never miss a scheduled call or go dark on a player
- ✓ Keep all parent communications professional and aligned
- ✓ Give you monthly transparent revenue reports
- ✓ Take feedback seriously and improve continuously
